

Little Wings

Erica Wagner

6 - 18 February 2018

Inspired by a residency in Lightning Ridge and travels to the Northern Territory and the Kimberley in 2017, the paintings, collages and drawings in this exhibition reflect Erica's continuing practice of painting and drawing from life and in nature, and then repurposing these artworks in the studio – ripping and cutting them up, or working over layers of underpainting – to discover new and unexpected imagery.
